MOHIT BELLWANI

bellwanimohit@gmail.com +91 9552201705 https://www.linkedin.com/in/mohit-bellwani/

PROFESSIONAL SUMMARY:

Software professional with experience in AI-enabled application development, production support, and full-stack development. Skilled in Python, SQL, C#/.NET, and troubleshooting application issues across financial and business systems. Proven ability to automate workflows, improve operational efficiency, and deliver client-focused solutions, including cataloging and CRM applications.

TECHNICAL SKILLS:

Production Support	: Incident Management, SLA, RCA, Log Analysis	**OS**	: Windows, Linux (Ubuntu)
Databases	: MySQL, SQLite, MongoDB	**Tools**	: Jira, AWS (Basics), Postman, Liferay, Zoho Expense, Zoho Books
Programming Languages	: Python, C#	**Mobile Frameworks**	: Ionic, Android (Java/XML)
Web Frameworks	: Blazor, React (Basic)	**Middleware & APIs**	: CodeIgniter 4, Nginx, Temporal
Source Control	: Git, Bitbucket	**AI Tools**	: Claude, Codex, LocalAI

WORK EXPERIENCE:

Applied AI Engineer, SMB Catalyst — Mar 2026- Present

- Developed AI-enabled applications and solutions for client business workflows.
- Developed a Smart Cataloging system that reduced client presentation preparation time by 80% and soft quotation generation time by 90% by centralizing catalogue data.
- Integrated CRM functionality into the cataloging system, enabling clients to record leads and manage follow-ups more efficiently.
- Developed Android and iOS applications to extend catalog and CRM functionality to mobile users.

Senior Executive Application Support, Arkafincap — Sep 2024- Oct 2025

- Provided L1 and L2 application support for the company's Loan Origination System (LOS), troubleshooting production issues and coordinating resolutions.
- Automated MongoDB to Excel reporting via Python scripts consuming the Netcore Email API, reducing manual data entry and improving reporting cadence by 50%.
- Cut incident resolution time by 20%, lowering MTTR from 8 to 6 hours through pod-level analysis using Kubernetes (kubectl, logs) and zgrep on production servers.
- Developed a custom Razorpay payment link generator using Google AppScript, reusing existing methods to support new IMD products and reducing development time by 40%
- Coordinated with vendor and executed approved policy changes, improving adoption & end-user satisfaction.
- Briefly worked on Liferay, a website builder, before changes were managed by the parent company.

Developer, QloudX — Aug 2023- Apr 2024

- Contributed to Silverlight→Blazor.NET migration, delivering 15% components/pages across 25 sprints with on-time milestones.
- Built reusable Blazor components and integrated C#/.NET Core services, reducing duplicate UI effort by 20% and improving development times by 15%.
- Participated in 24 code reviews & resolved feedback within 4 hours median, lowering rework/defects by 15%.
- Documented component patterns and usage, cutting onboarding time for new contributors by 20%.

Software Support Technician, TATA CONSULTANCY SERVICES — Aug 2020- Jan 2021

- Executed sanity testing of web applications and documented issues to support stable releases.
- Performed PHP/MySQL data corrections and coordinated with relevant teams to resolve production issues.
- Used TortoiseSVN for version control and participated in daily stand ups for task tracking.

INDEPENDENT PROJECTS & CONSULTING:

Freelance Software Developer, Remote Self-Employed Oct 2025 – Mar 2026

- Engineered a robust Tauri desktop application for a hardware store, utilizing SQLite for local data persistence and seamless offline operations. Developed a cloud-synced web demo deployed on Vercel/Render.
  - https://inventory-pro-eight.vercel.app/
  - Tech Stack: SQLite, React Tauri, Python FastAPI
  - Services used: vercel, render, supabase
- Designed a full-stack personal portfolio and deployed a high-performance personal brand site to showcase full-stack capabilities, integrating MongoDB Atlas for dynamic content management.
  - https://mohitbellwani.in/
  - Tech Stack: React Vite, Python FastAPI, MongoDB, Tailwind css
  - Services used: vercel, render, atlas Mongo DB
- Currently architecting a scalable e-commerce solution for a grocery business to handle high-volume inventory and sales data. Implementing secure image storage via AWS S3 and optimized database queries using PL/SQL.
  - Tech Stack: React, SQL/PLSQL, Python FastAPI
  - Services used: vercel/hostinger, render/digitalocean, SQL services online, s3 for images

INTERNSHIPS:

Intern Software Developer(internship), 43 APP MART Jan 2023- Jun 2023

- Developed a campus placement management app (Angular+MySQL), delivering 2 core modules (e.g., student profiles, company postings) across 16 sprints.
- Implemented CRUD workflows and validations, reducing manual admin effort by 10% and lowering user-reported issues by 10%.
- Drove weekly demos & feedback cycles, cutting rework by 25% & hitting 60% on-time milestone delivery.

Intern Consultant(internship), UGAM A MERKLE COMPANY Jan 2022- May 2022

- Built Android data-scraping workflows using Python+Appium, extracting 5-7 data points/session with 80% success rate.
- Automated data acquisition with Python+SQL, reducing manual prep by 40% and increasing refresh frequency from daily to twice a day.
- Exposed Django REST APIs consumed by a React frontend.
- Operated in weekly sprints using Jira/Bitbucket, closing 3 story points/sprint and lowering defects by 15%.

CERTIFICATIONS:

AZ900 (2022):
MICROSOFT CERTIFIED: AZURE FUNDAMENTALS

OCI GEN AI Professional (2025):
ORACLE CLOUD FOUNDATIONS 2025 CERTIFIED GENERATIVE AI PROFESSIONAL

EDUCATION:

Master of Computer Applications Dec 2022
Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology, Mumbai

Bachelor of Science, Computer Science Oct 2020
Vivekanand Education Society's College of Arts, Science & Commerce, Mumbai

Personal Details:

- Address : Birla Vanya, G-1002 Ashmi, opposite Century Rayon, Murbad Road, Shahad,Kalyan west(421103)
- Date of Birth: 06th Oct 1999
- Nationality : Indian
