PROFESSIONAL SUMMARY:

I have experience as an Application Support Engineer(LOS) at Arkafincap, where I consistently met SLAs and utilized Python and SQL to automate MongoDB reporting, improving cadence by 50%. As a Developer at QloudX, I contributed to a Silverlight to Blazor .NET migration, building reusable components and integrating C#/.NET Core services that reduced UI effort by 20%. Previously at UGAM, I automated data acquisition workflows using Python and SQL, cutting manual preparation time by 40%.

TECHNICAL SKILLS:

- **Programming Languages** : Python, C#
- **Web Frameworks** : Blazor, Basic React(UI)
- **Source-Code Mgmt** : Git, Bitbucket
- **Databases** : MySQL, SQLite, MongoDB
- **Ticketing tool** : Sapphire IMS(Incident)
- **OS** : Windows, Linux(Ubuntu)
- **Tools** : Jira, AWS basic, Postman, Liferay, Zoho Expense and Zoho Books
- **Mobile Frameworks** : Ionic, Android(Java-xml)
- **Middleware & API** : CodeIgniter4, Nginx

WORK EXPERIENCE:

Senior Executive Application Support, Arkafincap

Sep 2024- Oct 2025

- ❖ Automated MongoDB to Excel reporting via Python scripts consuming the Netcore Email API, reducing manual data entry and improving reporting cadence by 50%.
- ❖ Developed a custom Razorpay payment link generator using Google AppScript, reusing existing methods to support new IMD products and reducing development time by 40%
- ❖ Cut incident resolution time by 20%, lowering MTTR from 8 to 6 hours through pod-level analysis using Kubernetes (kubect!, logs) and zgrep on production servers..
- ❖ Coordinated with vendor and executed approved policy changes, improving adoption & end-user satisfaction.
- ❖ Briefly worked on Liferay, a website builder, before changes were managed by the parent company.
- ❖ Worked as L1 and L2 Support engineer resolving issues related to LOS system being used at Company.

Developer, QloudX

Aug 2023- Apr 2024

- ❖ Contributed to Silverlight→Blazor.NET migration, delivering 15% components/pages across 25 sprints with on-time milestones.
- ❖ Built reusable Blazor components and integrated C#/.NET Core services, reducing duplicate UI effort by 20% and improving development times by 15%.
- ❖ Participated in 24 code reviews & resolved feedback within 4 hours median, lowering rework/defects by 15%.
- ❖ Documented component patterns and usage, cutting onboarding time for new contributors by 20%.

Intern Software Developer(internship), 43 APP MART

Jan 2023- Jun 2023

- ❖ Developed a campus placement management app (Angular+MySQL), delivering 2 core modules (e.g., student profiles, company postings) across 16 sprints.
- ❖ Implemented CRUD workflows and validations, reducing manual admin effort by 10% and lowering user-reported issues by 10%.
- ❖ Drove weekly demos & feedback cycles, cutting rework by 25% & hitting 60% on-time milestone delivery.

Intern Consultant(internship), UGAM A MERKLE COMPANY

Jan 2022- May 2022

- ❖ Built Android data-scraping workflows using Python+Appium, extracting 5-7 data points/session with 80% success rate.
- ❖ Automated data acquisition with Python+SQL, reducing manual prep by 40% and increasing refresh frequency from daily to twice a day.
- ❖ Exposed Django REST APIs consumed by a React frontend.
- ❖ Operated in weekly sprints using Jira/Bitbucket, closing 3 story points/sprint and lowering defects by 15%.

- ❖ Executed sanity testing of web applications and documented issues to support stable releases.
- ❖ Performed PHP/MySQL data corrections and coordinated with relevant teams to resolve production issues.
- ❖ Used TortoiseSVN for version control and participated in daily stand ups for task tracking.

PERSONAL PROJECTS:

Portfolio Project, OCT-NOV 2025

Self-learning project which is a personal portfolio website built using React and Tailwind CSS. It showcases my skills, experience, and projects in a clean and modern design. The site is fully responsive and optimized for performance, providing an excellent user experience across all devices.

Link: mohitbellwani.in

- ❖ **Tools-** React, Javascript, Tailwind CSS, Vercel.

ACADEMIC PROJECTS:

SMS GPS Location, MCA SEM IV

Self-learning project which is an android app that sends users location in an on demand manner when a text message containing keyword is received by authorized/permitted phone number in users contact list or by entering phone number.

- ❖ **Tools-** Android studio, java, Xml, Maps api.

Adventures Of The Lost World, MCA SEM II

Developed an educational video game, "The Adventures of The Lost World," aimed at making education engaging and enjoyable through interactive gameplay. The objective was to enhance learning experiences for young students by integrating fun and educational elements into the game.

- ❖ **Tools-** Python, Renpy, Vroid studio, Mixamo, unity engine.

CERTIFICATIONS:

AZ900 (2022):

MICROSOFT CERTIFIED: AZURE FUNDAMENTALS

OCI GEN AI Professional (2025):

ORACLE CLOUD FOUNDATIONS 2025 CERTIFIED GENERATIVE AI PROFESSIONAL

EDUCATION:

Masters Of Computer Application

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology, Mumbai

Dec 2022

Bachelor of Science, Computer Science

Vivekanand Education Society's College of Arts, Science & Commerce, Mumbai.

Oct 2020

Higher Secondary Certification, Science

SMT. C.H.M College, Ulhasnagar-3

Feb 2017

Secondary School Certification

Hare Krishna N.C.T. Convent High School, Ulhasnagar-4

Mar 2015

Academic/Extra-Curricular Achievement:

- ❖ Certificate of Merit Holder(3rd Rank) in Throughout MCA
- ❖ 3rd prize winner in Eg-100 competition Conducted by IEEE Bombay and CDAC held in duration Apr – July 2021
- ❖ 1st prize in Annual Book Review Competition conducted in VESASC college library held on date 19th Jan 2019.
- ❖ Best Exhibition at Science-Mela as Game-Master conducted in VESASC held in year 2018.

Personal Details:

- ❖ Address : Birla Vanya, G-1002 Ashmi, opposite Century Rayon, Murbad Road, Shahad, Kalyan west(421103)
- ❖ Date of Birth: 06th Oct 1999
- ❖ Nationality : Indian
